Dear Johann,

Groden will be sending me a 16mm print of the Martin (Minneapolis) film.

If he lets me pay for it, I'll send it to you for you to repay me.

If he doesn't, I'll have to keep it and will lend it to you.

I've seen the videotape he and Jack Gordon put together. It has some interesting segments from a large number of films but because of the editing and the large amount of what I think holds no interest for you, I remain of the belief that you'll do better to get the entire films and make your own judgements. For example, re this Martin film, it eliminates what may interest you, the young man Barbara Reid thought she knew.

Collectors Archive in Canada has pirated this videotape. Gordon has yet to recapture his actual cash costs on it.

Best wishes,
